

A close-up photograph of a red knitted fabric featuring a complex diamond-shaped lace pattern. The pattern consists of interconnected diamond shapes, some of which are solid-knit while others are open, creating a delicate, mesh-like appearance. The texture of the knit is clearly visible, with individual stitches and loops forming the structure. The color is a deep, vibrant red.

A 20x20 grid representing a 20-sided die. The grid is divided into four 10x10 quadrants. The top-left and bottom-right quadrants contain numbers 1-10, while the top-right and bottom-left quadrants contain numbers 11-20. The numbers are arranged in a pattern that suggests a standard die layout, with 1 and 20 at opposite corners, 11 and 9 at opposite corners, and 12 and 8 at opposite corners. The numbers are represented by black dots on a white background.
